FINANCIAL EUSINESS during the week has been in the usual state of chronic compirints in every direction of the wart of employment for money. The Latilunore San says: "The limited amount of business in the merchandise markets bank to increase the ease of the markets bank to forcease the ease of the markets." The New York Times observes that in the last twenty two months fifty disions of legal tenders and bank notes we been withdrawn from circulation; vas int wanted as no scarcity is felt it its absence. The Times adds; ben prices have reached their lowest and when business takes a fresh the tendency of money to Taire cive use and go into bank valuts use to operate. We shall then, y, witness a cers don of the surface of the currency will an end." Exchange has scant supply and light till week, with some ship-irrecy. This has caused a the rate, so that the banks lew York at par instead of it if premium; New Orleans ling at par. Gold at noon t yesterday quoted 112; ere giving 1114 for it; one duliness. Money remains abundant, with little sale for it, and there are still brokers here were giving 1112 for it; one of them sold \$1250 gold at 1122. The New York Times points out that "if gold sinks in value owing to the absence of a foreign demand for it, and paper money rises in value on account of its increasing scarcity, and congress takes increasing scarcity, and congress takes no action to counteract the operation of total notation of trade, the gold premium Total Oct. 8 the laws of trade, the gold premium must soon-probably within a yearregister the effect of these influences by a substantic, 'fall, such as took place in the early months of 1870." The New York Heraid of Friday reported: 'M ney rates are 3; and 4 per cent. who accompanied by good slock colfaterals. Prime paper is quoted in the discount market at from 4 to 6 per cent. The following are the rates of exchange on New York: Savannah, selling, 5-16; buying, tot premlum. Cinciunati firm, 90(3100 premium. Chicago, 50 premium. New Orleans, commerc'a', 316; bank, 14. Halders of State warrants seem indifferent about parting with paper at less nan 95c, and hence only small am sun's have changed hands. S.ate bonds of 1871 command 682, and those of 1878 about 90c. For levee liquidating bonds 252 was offered, and 35c asked. City scrip is very quiet at 50@53c; school teachen' warrants command 70c, with light inquiry." Scrips during the week have mostly bid downward, not from any change in their estimated value, but from inactivity; the table below gives the rates. During the week a few Left wich city coupons, untainted, sold at 69; some city geld bonds, May coupon off, sold at 42. Gas stock to the amount of \$5000, sold on private terms, understood to be near 93; 92; was offered for \$15 000; a small lot was on the market at 93 Bank of Commerce shares were

New Orleans quoted 12c, which rate was malofell on Thursday to 111e, and on Friday to 11to. This statement shows a decline of to in New York, to in New O.leans, 1-16d in Liverpool and 5-16c in Memphis. After the declines of the week before, this statement of things is not encouraging, especially as it comes after buyers and sollers and Liverpool itself had arrived at the conclusion that e atton could go no lower. That conclusion was just as things stood before the European money markets fell into confusion. As Liverpool now governs prices the monetary influences pre-vailing on that side of the vailing on that side of ocean are all important, and their "Notwithstanding the vast amount of money awaiting investment, there is scarcely any opening for it, even though effered at merely nominal rates. This of course does not mean that there are no speculators who are willing to receive money, but only that there are no speculstions which command public confidence. Everywhere there is doubt and suspicion, and every one is waiting from day to day to see what may happen. The impression deepens that the eastern question is, after all, to explode in earn-est, and that the fire is fanned by Russia, indirectly if not directly. Sarvia, it is believed, will soon interpose openly, and then other powers will necessarily be obliged to take sides." Doubt and euspicion, and want of confidence in the future, promiss iil for mercantile pros-perity, and cotton is sure to have its full share of the effects of this state of things. On our own side the water there is an ulter want of activity in commerce, and cotton's share of the troubles may be Judged of by the fact that the no outlet shown for cotton, and an additional weight was added during the the east was announced in the days, but storms north of us are sending a freshet down the Mississippi which will interrupt the decrease. Very little has reached us up to this time. As to the crop, outside of the official returns made monthly to the cotton exchange, the

Natchez Democrat has the following: We have been informed that snails, or souge, are doing considerable damage in the country by culting up the young plants in the gardens and the cotton in the fields. The sasil is a new enemy of the cotton-plant. We, in a thirty-years' experience in cotton-planting, having only within comparatively a few years past heard of the cotton plant being seriously injured by them." The last weekly report of the New York Bulletin described the market there as "feverish and looking downward. The overflow R. R., 27; L. & N. G. S. R. R., 121; M. of the Mississippi has become shorn of & L. R. R. W., 36; steamers, 316; estibrilliant, and the tale of affairs at Liverpool seemed to indicate a weak undertone throughout. The movement of actual cotton, too, has been rather disappointing, the expected call on foreign account | markets as received at the cotton exof developing itself, and shippers fail- change: ing to take the May short notices to any extent. The absence of faith in invest-ment in any article of merchandise and the general clinging to the hand-tomouth policy by consumers has probably had as much to do in unseiting confidence as anything else—cotton being no exception to the rule-and, finding the market going from under them, owners have lost stamina and incontinently sold out. Dealers say that there is a universal complaint among spinners of the unprofitable condition of their busicss, which necessitates the most rigid economy, and compels all purchases on a close calculation to actual wants." Receipts in Memphis during the official week aggregated 2623 bales, against 2641 bates the previous week, and 1611 bales the corresponding week last sea-

son. The total receipts since September 1, 1875, are 470,197 against 315,382 bales at the corresponding time last season, showing an increase of 154,815 bales. Shipments during the official week aggregated 5950 bales, against. YESTERDAY. DAY BEFORE.

Cursales were very light, for the demand was quiet, while hold-

ers were but little disposed to let their cotton go, as the present state of the bearing upon the subject induces us to copy the following from the London still further delay planting, so as to make the correspondence of the New York Times: still further delay planting, so as to make fact that would stiffen the market. The New York Bulletin, of Friday, reported: "The general market was again in a dull and heavy condition, and prices lower throughout. Spots were entirely neglected by exporters, who can obtain short notices on much easier terms, but want no stock at the moment. From spinners there was a limited inquiry, granted in many cases. On contracts

but no anxiety whatever shown, and easy terms insisted upon, which were there was considerable animation, but a weak and declining market, and prices generally lower, with the tone rather blue throughout. The shorts appear to become much less anxious to cover, and a great many operators are inclined to sell on the late months, in view of the favorable weather accounts from the south. On near by maturing engagements the depressing influences seemed to be found in the liberal offering of short notices and the discrepancy between the value of spote and June, with tional weight was added during the

afternoon by reports of adverse private telegrams of a single morning advices from Liverpool." Quotations The river has been falling for some at the Memphis cotton exchange were as follows:

Market quiet and easy; sales 400 bales, of all of which spinners took 400, export-ers, — bales. Dusty cottons quote 51 @71c; stained, 7@10c. Price of middling same time last year, 15gc.
